Professional Summary:

I am a skilled Software Developer, I specialize in designing, developing, and maintaining software applications, platforms. With a strong foundation in programming languages and extensive experience in building both front-end and back-end systems, I excel in addressing complex issues with efficient solutions. My attention to detail and robust problem-solving abilities ensure high-quality results. I am passionate about learning new technologies and staying current with industry trends. My collaborative approach and effective communication skills make me a valuable asset to any development team.

Technical Skills

- Programming Language(Python)
- Django
- Django Templating Security
- HTML & CSS, Github, Gitlab
- Python Object-oriented Development
- Frameworks and Technologies
- Database Management
- UI/UX Design
- Version control
- Project Management

Soft Skills:

- Human-Centered Design
- Lean-Startup methodologies
- Lean and Agile methodologies
- Leadership & Personal Development
- Problem-solving
- Adaptability
- Quick learner
- Critical thinking

Experience

Software Engineering Apprentice,

RHIPFactory Venture Studios, Nigeria | June 2025 – December 2025

- **AI-Powered Mental Health Platform:** Developed a mobile-responsive web application to provide accessible and affordable mental health care for individuals in Africa especially people at work where expert mental health services are limited or unavailable.
- **Collaborative Teamwork:** I worked collaboratively with a team of six other apprentices, contributing to the successful completion of various projects.
- **Boot Camp Participation:** I participated in a three-month intensive boot camp, collaborating with a group of six team members to gain hands-on experience and improve technical skills.
- **Security Project and Execution:** I led the planning and implementation of security measures across Platform, including vulnerability assessments, secure coding practices, and compliance monitoring to ensure timely delivery of secure, quality solutions.

Project 1

Obeeoma- AI-Mental Health Platform

Internship at Apprentice,

RHIPFactory Venture Studios, Nigeria | June 2025 – December 2025

- **Mental Wellness Solution:** Contributed to the development of Obeeoma, an AI-first B2B platform providing culturally relevant mental health support for Africa's workforce.
- **Feature Development:** Assisted in building key modules including secure onboarding, daily mood tracking, AI chatbot ("Sana"), and employer analytics dashboard.
- **Technology Utilization:** Utilized React and Typescript, Node.js, Python and Django, and Figma for development and design, with Trello and GitHub for project management and collaboration.
- **User Experience Focus:** Improved usability and accessibility by designing privacy-centered and intuitive user interfaces.
- **Collaborative Development:** Worked in a team of six apprentices using agile methodologies to deliver MVP features on time.

Project 2

INVENTORY MANAGEMENT

- Developed a full-stack web application for managing stock, sales, and deferred payments. Included role-based dashboards for Manager, Director, and Sales Agent.
- **Tools:** Python, Django, Bootstrap, HTML, CSS, Versioncontrol , SQLite.

Education

- **Certificate in Software Engineering with Python ,**
Refactory Academy February 2025 - May 2025

Uganda Certificate of Education,

Languages

- English
- Lugishu
- Luganda
